

BAE Systems

At **BAE Systems** we deliver projects of global and national significance to our customers and are recognised for developing some of the most impressive careers. We are an opportunity rich environment with numerous projects across multiple domains with a national workforce of over 5500 people. Collaborating with our supply partners, we develop, engineer, manufacture, and support products to deliver capability as promised to our customers.

It's an exciting time to join us and a great place to start your career.

[BAE Systems Maritime Australia](#) located in the Le Fevre Peninsula and [BAE Systems Australia](#) located at Edinburgh Parks are calling for applicants into their 2024 apprenticeship programs. We have apprenticeships in Machining, Electronics, Boiler making, Piping and Mechanical fitting.

We have also developed an exciting opportunity working in conjunction with Uni SA to deliver a *Degree Apprenticeship* in Software Engineering.

If you have a group of students that would be keen to work for a global company which presents many opportunities for growth, we would like to present to them the many opportunities on offer in a 30 minute presentation.

In addition we are seeking expressions of interest from females that would like to attend an information session about careers within BAE. This session will be based on demand and offered at our city site from 4pm until 5pm on the 13th of September.

For either of these opportunities please contact:
