### ABOUT THE COURSE

This unit of competency specifies the mandatory work health and safety training required prior to undertaking construction work. The unit requires the person to demonstrate personal awareness and knowledge of health and safety legislative requirements in order to work safely and prevent injury or harm to self and others.

In this Industry Licence course, you will develop your understanding of work, health and safety in the construction industry through being exposed to common scenarios experienced on the job. This course is endorsed and supported by the Construction Industry Training Board (CITB) and provides some support for eligible students under the Doorways2Construction program.

### PATHWAYS

Successful completion of this unit of competency will support students as they prepare to undertake Workplace Learning in the construction industry. The White Card is recommended for all students studying Construction Pathways and is a mandatory unit of competency in the Certificate II Electrotechnology (Career Start) and Plumbing (Pre-Apprenticeship) qualifications.
